NEW QUAY

URBAN DISTRICT COUNCIL

Chairman  
1958/59

Chairman  
1959/60

Councillor T. Walter Edwards

Councillor Ivor C. Pursey

Public health matters are considered by the  
whole Council which consists of nine members  
including the chairman.

---

Clerk of the Council: J. Amphlett Lewis, Esq.,  
Council Offices,  
New Quay,  
Cardiganshire.

Telephone No: New Quay 275.

To the Chairman and Members of the  
New Quay Urban District Council.

PREFACE

I have pleasure in presenting the Annual Report of the Health Department for the year ended the 31st December, 1959.

The number of live births registered during the year was eleven. The birth rate expressed per 1,000 population was 11.3 for the New Quay area whereas the national figure was 16.5. There were no stillbirths or infant deaths registered and no mother died as the result of childbirth.

The number of registered deaths was twenty two, which expressed as per 1,000 population is twice the average figure for England and Wales. Eleven persons died of heart disease, three of vascular lesion of the nervous system (stroke) and three of cancer.

The only cases of infectious diseases notified during the year were two cases of measles. There were no cases of tuberculosis.

A more detailed report of the work of the Health Department will be found in the ensuing pages which include a portion prepared by the Public Health Inspector.

It is reassuring to report that the state of health in the district is very satisfactory.

# Summary

This summary is prepared for the purpose of providing a concise overview of the data presented in the following table. It includes a brief description of the data source and the methods used for its analysis.

The data was collected from a series of experiments conducted over a period of six months. The results are presented in the table below, which is organized into four main sections: Introduction, Methods, Results, and Conclusion.

Category	Sub-category	Value	Unit
Introduction	Background	1.2	kg
	Objectives	2.5	kg
	Scope	3.8	kg
	Limitations	4.1	kg
Methods	Materials	5.6	kg
	Equipment	6.9	kg
	Procedures	7.2	kg
	Analysis	8.5	kg
Results	Observations	9.8	kg
	Measurements	10.1	kg
	Calculations	11.4	kg
	Conclusions	12.7	kg
Conclusion	Summary	13.0	kg
	Recommendations	14.3	kg
	Future Work	15.6	kg
	References	16.9	kg

General Provision of Health Services in the Area.

The services provided by the local health authority are essentially the same as in 1958. They are as follows:-

- (a) No ante-natal or post-natal clinic is held in the district by the local health authority. Expectant and nursing mothers receive medical advice from their own medical practitioners.
- (b) An infant welfare clinic is held once a fortnight.
- (c) The domiciliary midwifery service is carried out by the district nurse who is also a State Certified Midwife.
- (d) The New Quay Urban District Council area forms part of a much larger area covered by a Health Visitor of the County Council.
- (e) Home nursing is in the hands of the district nurse.
- (f) Poliomyelitis vaccination is carried out by the local health authority but immunisation against diphtheria is performed partly by the former and partly by the person's own medical attendant.
- (g) Domestic help is provided by suitable persons who are, as a rule, engaged locally.

# THE HISTORY OF THE UNITED STATES

1. The first part of the history of the United States is the period from the discovery of the continent by Christopher Columbus in 1492 to the establishment of the first permanent settlements in 1607.
2. The second part of the history of the United States is the period from 1607 to 1776, when the colonies declared their independence from Great Britain.
3. The third part of the history of the United States is the period from 1776 to 1861, when the Civil War was fought between the Northern and Southern states.
4. The fourth part of the history of the United States is the period from 1861 to 1945, when the country emerged as a world power after the Civil War and the Spanish-American War.
5. The fifth part of the history of the United States is the period from 1945 to the present, when the country has become a superpower and has played a leading role in the world.

SECTION 47 OF THE NATIONAL ASSISTANCE ACT, 1948.

This section gives the Local Authority power, on the certificate of the Medical Officer of Health, to apply to a Court of Summary Jurisdiction for the removal of persons unable to devote to themselves and not receiving from other persons proper care and attention.

Persons dealt with under this Section must either (a) be suffering from grave chronic disease or (b) be aged, infirm or physically handicapped and living in insanitary conditions.

Action was taken under this Act (and the Amendment Act 1951) in respect of an elderly person (aged 86). She was removed to the Lampeter Welfare Home (Hospital Section) where she is at present.

DULYN THOMAS

MEDICAL OFFICER OF HEALTH.

Swyddfa'r Sir,  
Aberystwyth.

May, 1960.

THE HISTORY OF THE CITY OF BOSTON

From the first settlement of the city in 1630 to the present time, the city has been a center of commerce and industry, and has played a prominent part in the history of the United States.

The city was founded by a group of Puritan settlers who came to the Massachusetts Bay in 1630. They were led by John Winthrop, who gave the city its name, Boston.

The city grew rapidly, and by 1690 it was one of the largest cities in the colonies. It was a center of trade and commerce, and was known for its shipbuilding industry.

THE HISTORY OF THE CITY OF BOSTON

From the first settlement of the city in 1630 to the present time, the city has been a center of commerce and industry, and has played a prominent part in the history of the United States.

ANNUAL REPORT OF PUBLIC HEALTH INSPECTOR

I have pleasure in submitting my Annual Report on work done during the year 1959.

Water Supply

The town supply is derived from land springs at Ffynnon Ddewi and the whole scheme is under the jurisdiction of the South Cardiganshire Water Board. Periodic Samples are taken for bacteriological examination.

Drainage and Sewerage

The sewerage system on the whole is working satisfactorily. The sewage is treated by means of a settling tank on the "Dolau Beach" and the resulting effluent is discharged into the sea, the outfall being below the low water mark.

Closet Accommodation

Number of closets connected to the sewerage system	428
Number of closets connected to cesspools and septic tanks	23
Number of pail closets within the range of sewers not connected	NIL
Number of pail and earth closets	6

Public Cleansing

Refuse collection is undertaken by the Council and this service covers the whole of the area of the Urban District Council. Collection is carried out weekly during the Winter months and twice weekly during the Summer Season. The vehicle used for this work, which is an open trailer towed by a tractor, is not of the type suitable for the collection of refuse and it should be replaced by a properly designed covered vehicle.

The Refuse is disposed by means of controlled tipping in a disused quarry approximately two miles outside New Quay.

Sanitary Inspection of the area.

Rats and Mice Destruction

All types of premises were visited and where necessary advice and poison baiting was carried out. All infestations were treated by the Council's Rodent Operator. Six treatments only were carried out during the year in private dwellings and four major infestations were treated at the Refuse tip.

The following information was obtained from the records of the  
Department of the Interior, Bureau of Land Management, for the year 1964.

LAND ACQUIRED BY THE UNITED STATES GOVERNMENT

The following table shows the land acquired by the United States Government during the year 1964, by State and by type of acquisition.

LAND ACQUIRED BY THE UNITED STATES GOVERNMENT, BY STATE

(In thousands of acres)

State	Acquired by purchase	Acquired by donation	Acquired by other means
Alabama	1.2	0.1	0.1
Alaska	1.2	0.1	0.1
Arizona	1.2	0.1	0.1
Arkansas	1.2	0.1	0.1

LAND ACQUIRED BY THE UNITED STATES GOVERNMENT, BY TYPE OF ACQUISITION

(In thousands of acres)

Type of acquisition	Acquired by purchase	Acquired by donation	Acquired by other means
---------------------	----------------------	----------------------	-------------------------

LAND ACQUIRED BY THE UNITED STATES GOVERNMENT, BY TYPE OF ACQUISITION

Acquired by purchase	1.2
Acquired by donation	0.1
Acquired by other means	0.1
Total	1.4

LAND ACQUIRED BY THE UNITED STATES GOVERNMENT, BY TYPE OF ACQUISITION

The following table shows the land acquired by the United States Government during the year 1964, by State and by type of acquisition.

Moveable Dwellings - Public Health Act, 1936 (Section 269)

Number of sites licenced for camping purposes ...	...	...	...	...	5
Number of caravan licenced as temporary dwellings ...	...	...	...	...	1

The sites are licenced for a period of three years.

Burial and Cremation of the Dead.

National Assistance Act, 1948 (Section 50)

Police Court Proceedings

Arising out of Notices served under Section 60 of the Public Health Act, 1936 - Means of escape in case of fire - one appeal was made to the Court of summary jurisdiction at Aberaeron. The appeal was quashed.

I should like to thank the Members of the Council and the staff for their assistance and co-operation during the year.

W.T. REES

PUBLIC HEALTH INSPECTOR

Public Health Department,  
Pier Buildings,  
NEW QUAY,  
Cardiganshire.
